Summary of Benefits
UPMC Health Plan
EPO $500 $20/$20 Rx: $5/$28/$56/$56

The Exclusive Provider Organization (EPO) plan blends elements of a traditional HMO with elements of a preferred provider organization (PPO). Similar to a PPO, the EPO does not require you to select a primary care physician to act as a "gatekeeper." But like an HMO, the EPO does require you to receive your care from network physicians and facilities in order for it to be covered.

While PCPs are not required, UPMC Health Plan still believes that PCPs play a vital role in managed care. We encourage EPO members to build long-term relationships with your physician, who can be a family or general practitioner, an internist, or a pediatrician.

Your personal physician performs routine and preventive care, and can coordinate specialist care. Most important, your personal physician is in the best position to become familiar with your medical profile. Women (usually age 19 and older) also may select an ob-gyn to provide or coordinate all covered gynecological/obstetric care. However, women are not required to see the same ob-gyn on a regular basis.

As an EPO member, you must use network providers and facilities to receive covered benefits (except for emergency or urgent care, or very specialized care not available in our network; UPMC Health Plan must first authorize any services for specialized care not available in our network). If you choose to go to a provider or facility outside of the UPMC Health Plan network, you must pay for the services yourself.
